

SOCIAL WORK

ASSOCIATE OF ARTS
62 CREDITS

Social work practice involves the professional application of social work values, principles, and techniques. It aims to achieve various goals such as assisting individuals in accessing essential services, providing counseling and psychotherapy to individuals, families, and groups, supporting communities in enhancing social and health services, and actively participating in legislative processes. Practicing social work requires a comprehensive understanding of human development and behavior, as well as knowledge of social, economic, and cultural institutions, and how they interact with one another.

TRANSFER OPPORTUNITIES

Upon completion of the A.A. degree in Social Work, students will have the opportunity to seamlessly transfer the equivalent of the first two years of a bachelor's degree to any of the fourteen four-year universities in the PASSHE system. This enables them to efficiently pursue their degree program with an additional two years of full-time study.
